OPIS ZADATKA

Udomljavanje životinja (AdoptMe)

Moj projekat za udomljavanje životinja je interaktivan i prilagođen svim uređajima (responsive). Na njoj se nalazi nekoliko stranica koje pružaju korisne informacije o procesu udomljavanja kućnih ljubimaca.

Početna stranica ("**home**") je mesto gde posetioci mogu dobiti savete o usvajanju ljubimaca. Tu se mogu naći razlozi zbog kojih mislim da je bolje udomiti ljubimca i kako naći pravog, vama odgovarajućeg ljubimca.

Stranica "about us" pruža detalje o zadovoljnim usvajačima i misiji projekta. Posetioci se mogu bolje upoznati sa našim radom.

Na stranici "**adopt a pet**" posetioci mogu objaviti životinje (pse ili mačke) koje su spremni za udomljavanje. Samo registrovani korisnici mogu postaviti oglas. Ova stranica omogućava ljudima da pruže dom napuštenim životinjama ili da pronađu savršenog ljubimca za sebe. Takođe, mogu da pronađu baš ono što ima odgovara uz pomoć search opcije.

"**Care tips**" stranica pruža korisne savete o brizi za životinje. Ovde možete pronaći informacije o ishrani, higijeni, zdravlju i ostalim aspektima povezanim sa kućnim ljubimcima. Cilj nam je da obezbedimo informacije koje će pomoći usvojiteljima da se pravilno brinu o svojim novim prijateljima.

Na svakoj stranici postoji opcija prijave za primanje newslettera. Posetioci mogu ostaviti svoju e-mail adresu kako bi primali obaveštenja o novim životinjama koje su spremne za usvajanje ili druge relevantne vesti.

Admin panel omogućava administratorima da uklanjaju životinje sa sajta i odobravaju nove oglase. Samo ulogovani korisnici imaju mogućnost postavljanja oglasa o životinji.

Sajt takođe ima opcije za logovanje i registraciju. Posедуje još i opciju za promenu resetovanje zaboravljene lozinke i "mailto" kontaktiranje vlasnika životinje. Na ovaj način korisnici mogu pružiti podršku jedni drugima i rešavati eventualne nedoumice ili pitanja.

REALIZACIJA ZADATKA

PET POSTS:

```
<div class="container">
    <div class="row" id="pets">
        <?php
            // Get the pet posts from the database
            $sql = "SELECT * FROM pets where status != 'inactive'";
            $result = $conn->query($sql);

            $count = 1;

            if ($result->num_rows > 0) {
                // Output the pet posts
                while($row = $result->fetch_assoc()) {
                    $uniqueId = 'pet-'. $count;
                    $count++;
                    echo "<div class='col-lg-4 col-md-6' id='$uniqueId'>";
                    echo      "<a      href='dynamic-page.php?pet_id="
$row['id'] . "'>";
                    echo "<div class='pet post'>";
                    echo "<h3>" . $row['pet_name'] . "</h3>";
                    echo      "<p><span      id='about-pet'>Age:      "
$row['pet_age'] . "</span></p>";
                    echo      "<p><span      id='about-pet'>Type:      "
$row['pet_type'] . "</span></p>";
                    echo      "<p><span      id='about-pet'>Breed:      "
$row['pet_breed'] . "</span></p>";
                    echo      "<p id='pet-description'><span style='font-
weight: bolder'>Description:<br> " . $row['pet_description'] .
"</span></p>";

                    $imageData = $row['pet_image'];
                    $encodedImage = base64_encode($imageData);
                    $imgSrc = 'data:image/jpeg;base64,' . $encodedImage;
                    echo "<img src='" . $imgSrc . "' id='pet-db-image'>";
                    echo "</div>";
                    echo "</a>";
                    echo "</div>";

                }

OPIS FUNKCIONALNOSTI

Na **početnoj stranici(home)** nalaze se 2 mesta za logovanje ili kreiranje novog naloga(login and register), u navbaru i hero sekciji. Takođe ovde se nalazi i nav bar gde se mogu pronaći linkovi ka drugim stranicama na sajtu.

Na svakoj stranici se nalazi mesto za unos mail-a kako bi se korisnik mogao prijaviti za **newsletter**.

Subscribe to our newsletter

Want to stay up to date with our work. Just enter your e-mail and let click the subscribe button. It's **that simple!**

About us stranica je napravljena kao infomaciona stranica, gde se može videti misija samog projekta i šta su rekli pojedinci koji su udomili svog novog ljubimca.

What our adopters say?

Mark Smith

adopter

I can't imagine life without my furry companion! Adopting from adoptME was the best decision I've ever made. The staff were incredibly helpful and matched me with a pet that was the perfect fit for my lifestyle. My pet brings so much joy and laughter into my life, and I feel good knowing that I've given an animal in need a loving home.

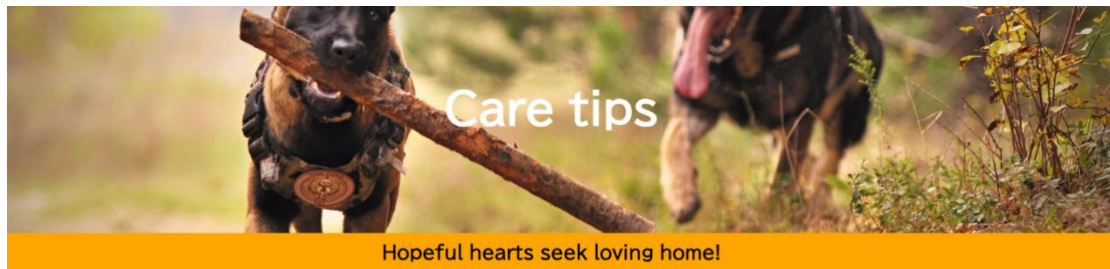

I never knew how much love a pet could bring into my life until I adopted from adoptME. My furry friend has become such an important part of my family, and I'm grateful every day for the joy and companionship they provide. Adopting a pet is truly a life-changing experience, and I'm so thankful to have given an animal in need a second chance at a happy life.

Na ovoj stranici se mogu pretražiti životinje (mačka i pas) uz pomoć search funkcije. Jednostavno upišite dog ili cat i izlistać se objave pasa ili mačaka dostupne na sajtu.

Pets for adoption

Kada se korisnik uloguje, klikom na make a post dolazi se do forme gde se može napraviti nova objava za udomljavanje životinje.

Kako bi imao kontrolu nad objavama životinja, napravio sam admin panel na kome se mogu brisati i aktivirati/deaktivirati objave. Po default se objava tretira kao neaktivna, iz razloga da admin može da odobri objavu. Ovo sam uradio iz razloga da se izbegne neprikladan materijal ili nerelevantne objave.

Kada se korisnik uloguje ili registruje dobije se u navbaru naziv korisnika i logout dugme sa kojim se odjavljuje.

about us adopt a pet care tips Hello, daks117

Klikom na user-a može se pristupiti formi gde se može zameniti korisničko ime i šifre korisnika.

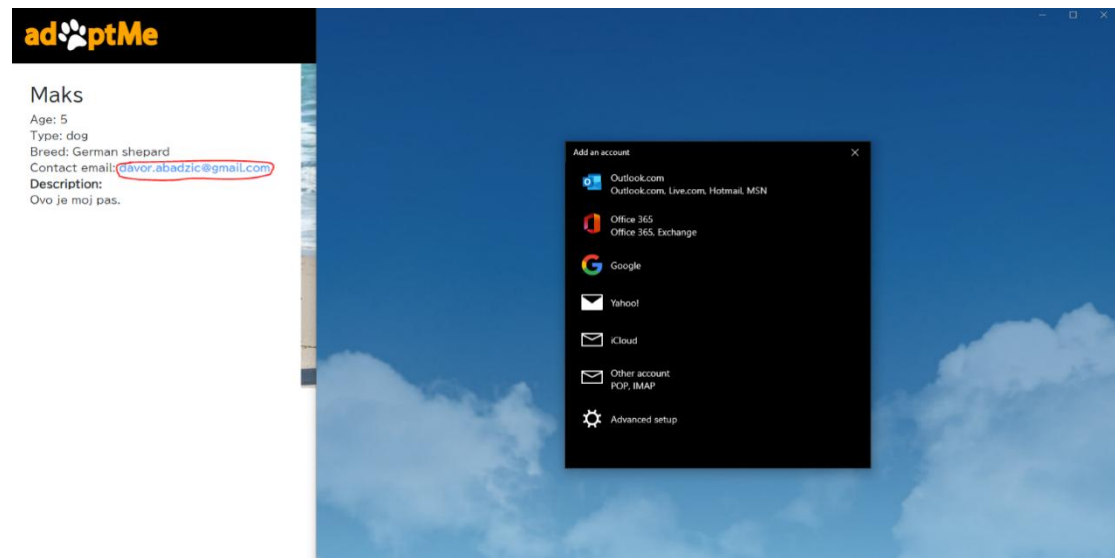

Change Your Profile

New Username:

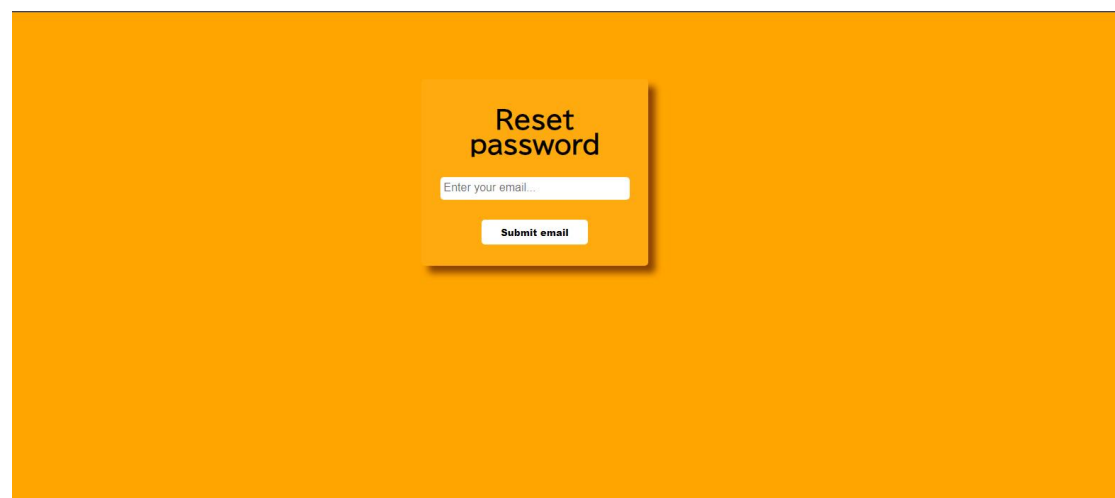

New Password:

[Back to home page](#)

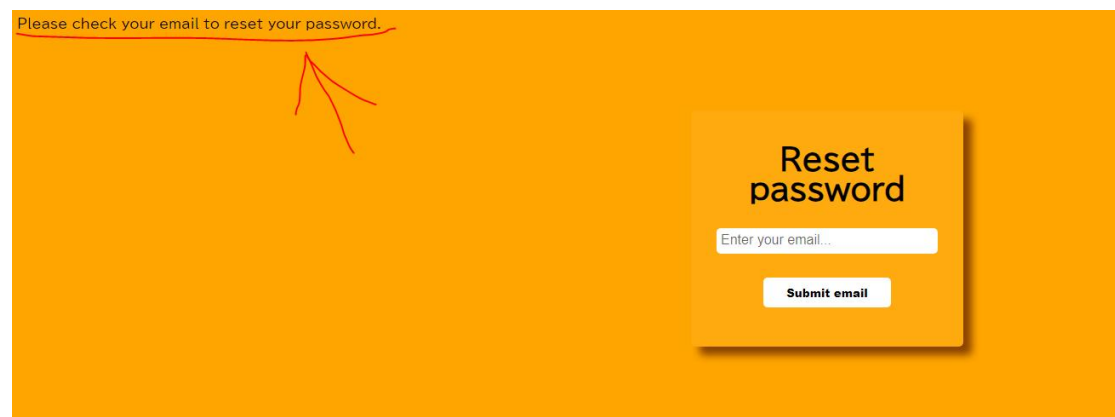

Kada se klikne na objavu na novoj stranici se otvara prozor sa više detalja o životinji. Na toj stranici se nalazi mejl adresa korisnika koji je vlasnik objave. Klikom na link otvara se prozor za Vašu izabranu mejl aplikaciju. Na ovaj način možete kontaktirati vlasnika objave.

Ako se desi da korisnik zaboravi svoju šifru za prijavu na sajt, ima mogućnost da je resetuje uz pomoć funkcije reset password.

Kada upiše svoju mejl adresu i pritisne Submit email, korisnik će biti obavešten da je mejl poslat u levom gornjem uglu i na njegov mejl se šalje link za reset šifre.

Klikom na link iz njegovom inbox-a dolazi na staranicu pod nazivom reset password i ima mogućnost resetovanja šifre.

A screenshot of a 'Reset password' form. The form is a light orange rectangle centered on a solid orange background. It contains the title 'Reset password' in bold black text, a text input field with the placeholder 'Enter your new password', and a white 'Submit' button at the bottom.
